

**GOVERNMENT OF INDIA
WATER RESOURCES
LOK SABHA**

UNSTARRED QUESTION NO:141
ANSWERED ON:19.11.2001
CONSTRUCTION OF CANAL IN HARYANA
SIS RAM OLA

Will the Minister of WATER RESOURCES be pleased to state:

- (a) the time by which the construction work on the proposed canal from Loharu via Pipli Ladunda in Haryana upto Jhunjhunu district of Rajasthan is likely to be started;
- (b) the reasons for not providing water to Jhunjhunu district and some parts of Rajgarh tehsil of Churu district out of the Yamuna water sanctioned to Rajasthan for the purpose of irrigation; and
- (c) the time by which the said water is likely to be made available there?

Answer

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SMT. BIJOYA CHAKRAVARTY)

(a) to (c) Construction work in the proposed Canals in Haryana and Rajasthan can be taken up only after the relevant modified Detailed Project Reports are prepared by the Government of Haryana and Rajasthan inter-alia including the quantum of water to be conveyed from Haryana to Rajasthan through the conveyance system of Haryana and submitted to the Central Water Commission for techno economic appraisal. Thereafter, upon finding the project techno-economically viable, the project would need to be considered by the Advisory Committee on Irrigation, Flood Control and Multipurpose Projects which, upon finding the project acceptable, has to recommend the same to the Planning Commission for considering it for investment clearance. Thus, the construction work of this project can start only after investment clearance is accorded to it by the Planning Commission.
